Course Title: Chemical Agents (OC Spray)

Hours of Instruction: 4

Course Objectives:

- 1.1 Examine the evolution of chemical agents (OC Pepper Spray).
- 1.2 Identify the physical and psychological effects.
- 1.3 Identify how to care for, maintain, and deploy OC pepper spray.
- 1.4 Name the methods of dissemination and related chemical agents.
- 1.5 Identify the federal, state, and agency policies with regards to using OC pepper spray and the force continuum.
- 1.6 Identify the proper conditions to use pepper spray, the environmental restrictions, and considerations to look at before using OC pepper spray (indoors/outdoors, potential hazards, and decontamination procedures).
