Are there enough supervisors to supervise staff?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	1 supervisor for 1 Sr. Probation Corrections Officer (CPO), 8 CPO II and 1 CPO I. There were 2 vacant positions: 1 Sr, CPO and 1 CPO position.
Are there staff who speak other languages?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	There are 9 English speaking and 2 bilingual/Spanish speaking staff.
Is there a diverse staff workforce?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Does facility have enough staff to ensure that all programs, activities are provided as required?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	At this time, there are 9 CPOs for 11 residents, 10 male and 1 female. Staff advised the female does not program with the male residents. She is housed with the treatment residents but has her own program. In addition, there is 1 supervisor and 1 senior CPO.
Comments:	Observed Senior PCO Eduardo Rodriguez: Outstanding rapport with PTS residents. Firm but fair. Staff ratio in PTS is 1:3 in the day and evening and 1:10 at night. In addition to direct continuous supervision by staff, there is continuous visual via security cameras. Staff also use handheld radios to enhance communication.			
Recommendations:	One issue of concern would be if additional females were added to the PTS program and continued to be housed in YTEC Treatment (Gamma) unit. An alternative solution should be explored.

COMMENDATIONS	
Comments:	<p>We would like to express our gratitude to the administrators and staff of the Pathways To Success, who have been gracious and accommodating during our recent inspection. Your hard work and accomplishments have not gone unnoticed. Although in it’s infancy, the Pathways To Success (PTS) program is a new concept which not only has been met but exceeded. Riverside County has set a high standard a model for others to follow. Thank you for your hard work, dedication and compassion you demonstrate each day.</p>

PTS Vision Statement

“Dedicated to creating collaborative re-entry pathways alongside youth to promote healing, healthy and resilient lifestyles, as well as strengthen families and restore safety to the community. “

After a facility overview, we moved to the PTS (Pathways to Success) unit, overseen by Division Director, Elisa Porras. Ms. Porras provided an overview of the legislation (SB823 Realignment of DJJ) moving DJJ-housed youth back to their home counties. Riverside launched its PTS model to accommodate the legislative requirements on July 1, 2021, with a few residents. The remainder were admitted August 1st. Currently the PTS unit is comprised of 10 males, housed in the Delta Unit, and 1 female. The female is housed in YTEC Gamma Unit.

Weekly treatment team minutes are sent to management and line workers/staff of respective units. The treatment team consists of the following: Probation staff [facility manager, supervisor, Sr. CPO, caseworker] medical staff (RN), Behavioral Health staff including a clinical therapist, RCOE staff including

an educational liaison, and Community partner. Collectively the resident and the team will evaluate the individuals progress in his/her program.

.JJDCP's inspection occurred barely three months into the PTS program launch at YTEC. That said, the County and Probation have done an outstanding job of creating programming to address SB823 requirements. Youth seemed well-acclimated, content and engaged in the success of the program. As the program scales, it will be interesting to see if this momentum can be sustained.

Division Director Porras is to be commended for the forthright manner in which she has shepherded this program in response to SB823. She, as well, commands the resident's respect and returns it.

Commissioners were extremely impressed with the PTS program, though in its infancy, as an effective tool to deal with the offloading of DJJ youth into the Counties. Certainly, the PTS program can serve as a model for other Counties as they implement similar programs.

- Administration is looking at creating meaningful job skills programs that will better prepare youth for jobs that are available/attainable.
- They are going to continue to develop programs/competitions that build team work skills; holiday decorating contests.
- Commissioners were briefed on incentive/rewards/money management programs where positive behaviors are rewarded by imaginary money awards or points which individuals track income to expenses for spending their income for items desired from cafeteria/store.
- Administrators are looking at options for residents that qualify and are not a threat to others to move to a transitional facility of some kind whether it be a residence, an apartment, or some separate residential facility to further prepare them for self reliance.

The PTS program is a great start, rethinking services, needs of the youth, family and community. This is an opportunity for the courts, community and residents to have a voice and pave a new path for incarcerated youth. The program will continue to evolve and grow as the need arises. The Juvenile Justice System has been faced with many challenging concepts and Riverside County is extremely fortunate to have the leadership to meet the challenge.
